Get electric cars charged easily and quickly

Morek EV charging products

ev.morek.eu

Morek eMobility AC chargers come in different versions and they are compatible with all electric car models.

Not just for private use - find a suitable model and service for an apartment building, parking lot, commercial building, etc.

#### One-man installation reduces the time and cost of installation

The installation process is simplified for maximum efficiency. The charger comes with a pre-set configuration and easy access to the setting shortens the setup time.

#### Different authorization modes support several use cases

Different modes of authentication support several use cases based on project requirements. The LCD display on the charger is easy to read and can be used in all locations - no translation to the local language is needed.

#### Built-in protection against grid overload

With both RCD and DC leakage built into the charging station, there is no need for additional rail space in the electrical cabinet, and the comprehensive detection capability for various residual fault currents is provided.

#### An agile e-mobility system, as you need it

Use it at home, apartment building, or work. Charge and share chargings. Perfect for public charging with charge point management & payment platform.

#### Easy-to-use public charging solution

Intuitive and easy—to—use tool for all EV drivers. Simplicity, speed, and clarity. No APP, no registration — everyone can charge right now, including aliens. Just scan the QR code, pay and charge.

## Manage chargings the easy, effective, and versatile way

Manage electric car charging locally or in various locations across Europe from one system.

Morek AC chargers can be installed either on a wall or pole which enables infrastructure planning for indoor or outdoor parking spaces more flexible.

### Industry Expertise

Morek brings extensive experience in the electrical industry, understanding the challenges customers face daily. This expertise allows us to offer targeted solutions that effectively solve problems, saving you time and money.

#### Customer-Centric Approach

Our primary focus is on helping customers succeed. By eliminating obstacles and providing efficient solutions, we aim to create a better future for you, enabling you to dedicate your time to more important tasks.

#### Comprehensive Product Portfolio.

Morek offers a tailored product portfolio that covers all your needs for managing electrical cabinet connections. With our complete solution, you no longer have to waste time searching for products from multiple suppliers.

#### Innovative Solutions

We pride ourselves on providing smart and innovative technical solutions. Our products are designed to simplify complex technical issues in a simple and elegant manner. Additionally, they can optimize space within enclosures and replace costly alternatives while enhancing technical functionality.

#### ElecZap Business Tools

ElecZap complements Morek's offerings by providing essential tools to simplify your everyday business operations. With features like centralized supplier management, easy access to order documents, project management, order tracking, and standardized product data, ElecZap streamlines your processes and enhances efficiency.

#### Technical Database and Quality Commitment

By offering a full technical database, catering to your technical and administrative needs, and ensuring the highest quality standards, Morek is committed to providing you with a seamless experience and effective solutions for your electrical challenges.

## Not just for private use - find a suitable model and service for an apartment building, parking lot, commercial building, etc.

#### Smart charge (WiFi, LAN, and/or optional 4G)

Use it at a private house, apartment building, or work. Charge and share chargings. Perfect for public charging with Powered by Vonktech charge point & payment platform.

#### Plug & charge

For private use. No internet connection and smart features. Just plug & charge.

**Accessories**For installation

Marek's electric car chargers solve all stages of creating an electric car charging point quickly - from delivery to ease of use for the end user.

**For installer and developer** a well-thought-out solution for quick and affordable installation.

**For the property owner and manager** the option of public charging helps to recoup the investment.

For the end-user it is easy for everyone to charge the EV.

#### Manage chargings the easy, effective way

- · Intelligent chargers are suitable for every electric car
- With informative LCD display and cable
- · Load management (DLM) capability
- · Network connection via LAN, 4G or WiFi
- · Ready to connect with any background system
- · Smart charging with an APP or RFID card
- · Easy to install

The installation process is simplified for maximum efficiency. The charger comes with a preset configuration and easy access with the Morek EV Tool APP to reduce setup time.

#### Public charging

- Quick and affordable deployment
- All locations in one system
- No end-user app download
- No end-user account registration

- EV 22 kW network charger
- 3.8" LCD display
- WiFi, LAN, RFID
- 6,5 m cable
- Type 2 connector

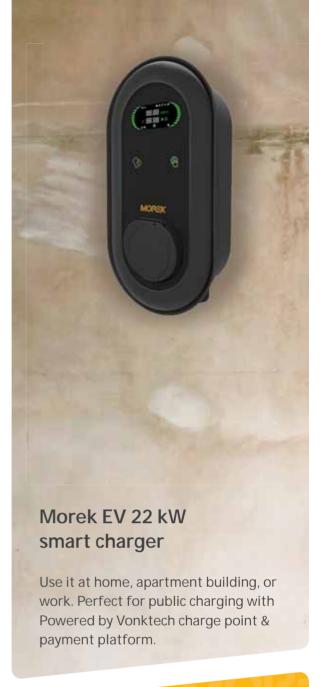

Product ID	MEV22DREW6T2
Charging mode	Level 2
Connector type	Type 2 connector with 6,5 m cable
Charging control	"Plug-and-Charge, Start/stop touch button,
	RFID Card, Configuration BT APP, Web app
Internet connection	Wi-Fi / LAN
External communication	RS485
IP protection	IP55
Impact strength	IK08
Display	LCD 3.8"
LED indicator	No
Communication protocol	OCPP
Background functions	OCPP 1.6, OCPP 1.6J
Reports	Full OCPP support, upgradable
Standard and CE certificate	CE & TUV certified
Leakage protection	TypeB (AC30mA + DC6mA)
Mounting	Wall / Stand
Stand / ground mount	Available, not included
Cooling method	Natural Cooling
Power network configuration	TN / TT -> (3P+N+PE ), TN / TT -> (1P+N+PE )
Efficiency	>99%
Power meter	OCPP integrated
AC power Input rating	3-phase 400V±20% / 1-phase 230V±20%
Rated frequency	50/60 Hz
Input current	32 A / 16 A
Output power	22 kW/ 11 kW/ 7.4 kW
DLM function	Available, not included
Storage temperature	-40 to 75°C ambient
Operating temperature	-30 to 55°C ambient
Operating humidity	Up to 95% non-condensing
Altitude	≤2000m
Electrical protection	Over/Under Voltage Protection, Over Load Protection, Short Circuit Protection, Earth Leakage Protection, Ground Protection, Over-temp Protection, Surge Protection
Dimensions mm	455 (h) x260 (w) x150 (d)
Weight kg	5,9

#### For installer and developer

a well-thought-out solution for quick and affordable installation.

For the property owner and manager the option of public charging helps to recoup the investment.

For the end-user it is easy for everyone to charge the EV.

Marek's electric car chargers solve all stages of creating an electric car charging point quickly - from delivery to ease of use for the end user.
